SKILLS

- **Languages**: C++, Java, Python, C, SQL
- **Frameworks**: HTML and CSS
- **Tools/Platforms**: AWS, Apache, Ubuntu, Blender, Unity
- **Soft Skills**: Problem Solving, Team Player, Resilience, Adaptable

TRAINING

Human Resource Development — June' 25 – July' 25

Mastering Java for Application development

- Completed a 1-month summer training in Java development covering core java concepts like, exceptional handling, File Handling, OOPS, collections and GUI development using AWT/Swing.
- Designed and developed multiple mini-apps such as calculator, digital clock and basic OS-style interfaces to strengthen event handling and graphical programming skills.
- Built hands-on projects including Flappy bird game, Car racing game, to gain strong practical application of Java Concepts.
- Utilized Graphics, Key Listener, ActionListener, and Swing components to create interactive 2D applications and games.

PROJECTS

Java 2-D Flappy-Bird Game |GitHub Link — July'25

- Developed a 2D Flappy Bird–style game implementing core game mechanics such as gravity, collision detection, and score tracking.
- Designed responsive player controls and smooth physics-based movement to enhance gameplay experience.
- Implemented obstacle generation system with dynamic difficulty progression to increase engagement.
- Utilized object-oriented programming principles to structure scalable and maintainable game logic.
- Debugged and optimized performance to ensure seamless execution and reduced runtime errors.

Manny – A Home Maintenance Chatbot |GitHub Link — April'25

- Developed an interactive AI chatbot integrating frontend technologies with conversational logic for real-time user interaction.
- Implemented API-based communication to process user queries and generate dynamic responses, simulating intelligent conversation flow.
- Designed responsive and user-friendly UI to enhance accessibility and seamless user experience across devices.
- Applied asynchronous programming (API calls, event handling) to ensure smooth and efficient chatbot performance.
- Structured modular and maintainable codebase following best practices in web development and version control using Git.

CERTIFICATIONS/CERTIFICATES

- Introduction to Internet of Things |NPTEL| Certificate Link — November'25
- Generative AI Professional 2025 | Oracle | Certificate Link — September'25
- AWS Fundamentals – AWS Cloud Practitioner Essentials | AWS | Certificate link — September'25
- AWS Academy Graduate – AWS Academy Cloud Foundation |AWS | Certificate Link — May'25

CO-CURRICULAR ACTIVITIES

- **Participated in AWS workshop on DevOps | AWS** — November' 25
  A full day workshop on DevOps basics for beginners
- **Participated in 24-hours hackathon | Code-A-Haunt 2.0** — April' 25
  A 24-hour hackathon on web development to solve real life problems
- **Attended 48-hours workshop on Python | IIT Mandi**
  A 48-hours workshop on python with demonstration of real life problems — April'24

ACHIEVEMENTS

- Solved 700+ Coding Questions on Leet Code, GFG, Code Studio, Code Forces, Code Chef — Since May'25
- Strengthened foundational cloud skills through AWS fundamentals workshop by AWS Club. — April'25

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology in Computer Science and Engineering; CGPA 8.4 — Since 2023
- **Madhuban Central School** — Bihar, India
  Intermediate; Percentage: 80% — March'2022
- **Madhuban Central School** — Bihar, India
  Matriculation; Percentage: 82.8% — March'2020
